Kuei-Feng Chris Tung

Full Stack Software Engineer
Taipei-Keelung Metropolitan area

Summary

I'm a self-motivated full-stack web developer with expertise in implementing fast, robust, secure, and maintainable internal restful web API systems (both stateless and stateful) primarily in the fintech industry. While the bulk of my past work experience involved HTML, JS, JSP, Spring MVC, Springboot, and MSSQL, I'm proficient in python and javascript tech stacks too, and very open to learning on the job.

My experiences are not limited to frontend and backend development. In my own time, I also have been learning different databases, and devOps tools, like Docker, Linux terminal commands, and Ansible.

Furthermore, I have other relevant valuable experiences to being a programmer that sets me apart from other web development candidates:

- automated QA testing with tools like Selenium, JUnit, and Chrome Recorder
- conducted code reviewing and mentoring
- led weekly standups and worked effectively in both small and large teams
- successfully refactored insecure and obfuscated javascript
- improved business logic to shorter, more readable, and faster code
- have worked in Agile Development with JIRA
- have a strong foundation and not overly reliant on 3rd party libraries

For my next role, I'm happy to continue developing in fintech, but I am also open to projects in other industries. In the 'Experience' section of my profile, you will find skills used listed in the job description as well as the 'Skills' subsection - this is so that the skills are also printed in LinkedIn's auto-generated resume.

Experience

RadSoftware

Product Owner & Full Stack Developer

January 2024 - Present (10 months)

Taipei, Taipei City, Taiwan

Develop UI interfaces and interaction flow based on Figma designs

Maintain high-quality code base and write clear documentation

Tackle complex user interaction problems and build bugfixes

Act as primary point of contact for international contractors

Responsible for integrating 3rd party game providers' API

Collaborate across timezone, language, and cultural differences

Code review contributions by other developers to ensure code base quality

Identify potential security risks and performance bottle necks and implement mitigations

Wistron ITS 緯創軟體

Full Stack Developer 軟體工程師

September 2020 - August 2023 (3 years)

Taipei City, Taiwan

Develop internal banking and life insurance systems as RESTful Web APIs with Java, Spring framework, Javascript, JSTL, JSP, PrototypeJS, HTML, SQL, DB2

Development tools used include Eclipse, Maven, Sourcetree, Git, Tomcat, VSCode, Chrome Developer tools, JUnit, TOAD, BitBucket, Ant, Selenium, and JIRA

Completed Agile weekly goals and occasionally exceeded KPI

Communicated design choices effectively with SA, PM during code reviews

Code reviewed coworkers' commits to maintain quality control

Wrote JUnit or Selenium test cases as part of QA SOP

Provided mentorship to newer developers on javascript related bugs for various assignments

Skills Used: REST APIs · Representational State Transfer (REST) · Jenkins · Agile Methodologies · Continuous Integration (CI) · Continuous Delivery (CD) · Application Programming Interfaces (API) · Spring Boot · Vue.js · Java · HTML5 · Research · Multilingual · Software Development · Front-end Development · Microsoft Office · JavaScript · Cascading Style Sheets (CSS) · Python (Programming Language) · Spring Framework · Git · Maven · Hibernate · Spring MVC · Tomcat · Teamwork · English · Chinese · GitHub · Eclipse · JavaServer Pages (JSP) · Back-End Web Development · SQL · AJAX

NüVoices

Full Stack Developer (Contract)

June 2023 - July 2023 (2 months)

Taipei, Taipei City, Taiwan

Client referred to me by previous clients for company website migration from one hosting service to another client-specified hosting service

Migrated company blog from Linode's (a hosting service) managed WordPress to WPEngine's (another hosting service) managed WordPress

Auditted Website performance before and after migration for client's reference

Applied WordPress PHP server version upgrade and plugins updates as part of services rendered

Configured CDN, DNS, and WPEngine Wordpress instance for client

Code reviewed and removed dead code from client code base as a bonus service

Skills Used: DevOps · WordPress · Site Reliability Engineering

Center for Asia-Pacific Resilience and Innovation (CAPRI)

Site Reliability Engineer (Contract)

April 2023 - May 2023 (2 months)

Taipei, Taipei City, Taiwan

Client reached out for a website performance audit along with site reliability and optimization

Produced a detailed documentation report on problems and solution implemented

Improved client's website load speed dramatically, from an average of 11 seconds to 2 seconds, with good CDN configuration, reducing webpage size with images compression, and fixing hosting service's managed Wordpress configurations and environment variables

Provided documentation SOP to prevent or minimize these same issues from reoccurring

Skills Used: DevOps · Front-End Development · WordPress · Site Reliability Engineering · Software Development

PTSC Pershing Technology Services Corporation 北祥科技服務股份有限公司

Full Stack Developer 軟體工程師

April 2020 - August 2020 (5 months)

Taipei, Taiwan

Exceeded expectations by resolving bugs in Test-Driven-Development style ahead of deadlines

Delivered RESTful Java server with Spring in short Agile development cycles

Developed back-end using MVC pattern, Java, Spring, Gradle, T-SQL, JPA, Apache POI, Tomcat, Docker, VirtualBox

Developed front-end using HTML5, Javascript, jQuery, React.js, AJAX, JSP, Mustache, CSS

Replaced legacy SWIFT system with RESTful Web API at 永豐銀行(永豐金融控股), Bank SinoPac (SinoPac Financial Holdings Company Limited)

Skills Used: REST APIs · Representational State Transfer (REST) · Agile Methodologies · Continuous Integration (CI) · Continuous Delivery (CD) · Application Programming Interfaces (API) · Spring Boot · Java · HTML5 · Research · Multilingual · Software Development · Front-end Development · Microsoft Office · JavaScript · React.js · Cascading Style Sheets (CSS) · Spring Framework · Git · Maven · Hibernate · Tomcat · jQuery · Teamwork · English · Chinese · GitHub · Eclipse · Back-End Web Development · SQL · AJAX · Bootstrap

Chiayi Branch, Administrative Enforcement Agency, Ministry of Justice

Military Administrative Serviceman

December 2017 - December 2018 (1 year 1 month)

Chiayi County/City, Taiwan

Served as welcoming first point-of-contact for guests, speakers, and other VIPs

Met and occasionally exceeded monthly quotas for auditing case files

Provided seamless customer experience when handling calls about tax and fines

Archived large volumes of case files as a team

Trouble-shot technical malfunctions, or Contacted appropriate repair vendors

Processed large amounts of outbound mail in the mailroom

MassDEP

Diversity and Civil Rights Intern

February 2017 - July 2017 (6 months)

1 Winter St, Boston, MA 02108

Enforced equal opportunity hiring practices during job candidate screening

Compiled guest lists and coordinated with supervisors, staff, interns, and other event attendants

Administrated internship program hiring process and LinkedIn group
Managed social media presence and event pages
Assisted event set up, tear down and follow-up

Landmine Relief Fund

Administrator Intern

April 2015 - June 2015 (3 months)

Siem Reap, Cambodia

Applied for community development grants to sponsor Cambodian Self-Help Demining (CSHD), a local landmine-clearing NGO, and Rural School Village Program (RSVP), a local NGO building schools in remote farming communities, both in cooperation with Landmine Relief Fund (LMRF)
Drafted and sent out donor-outreach e-newsletters
Managed company online presence by documenting their landmine-clearing milestones on blogging
Implemented audio tours at Cambodian Landmine Museum, in cooperation with LMRF, which entails script-writing, English-Chinese translations, recording and sound-editing with Audacity, equipment procurement, and staff-training
Taught elementary English and Chinese on the side

International Institute of New England (Boston)

Work Force Development Intern

January 2014 - June 2014 (6 months)

1 Milk Street, Boston, MA, USA

Trained clients for employment including practicing interview etiquette, processing job applications, and follow-ups
Served as first point of contact for resettlement clients at the reception
Taught ESL English to adult students in a small classroom setting
Translated between Chinese and English for clients and case-workers

Education

Institute for Information Industry (資訊工業策進會)

Software Developer Boot-camp: RESTful Web API with Java and Spring (Java工程師就業養成班), Computer Software Engineering · (2019 - 2020)

Northeastern University

Bachelor of Arts (BA), International Relations and Affairs · (September 2011 - April 2016)

Western Academy of Beijing

International Baccalaureate (IB) Diploma, Certificate program · (2009 - 2011)
